

# May is Stroke Awareness Month!

## Know the Signs of a Stroke...

- Sudden trouble speaking
- Sudden numbness of face, arm, or leg
- Sudden trouble seeing
- Sudden trouble walking, dizziness
- Sudden severe headache

**... And call 911!**

**Calling 911 early saves lives.**

Brought to you by Start with Your Heart and the North Carolina Division of Public Health, in partnership with the Eastern NC Stroke Network.
